Re: Immediate return to regulating Connecticut Light & Power and United  
Illuminating

I can not believe that our State Senators and Representatives have not voted to stop CL&P and UI from hurting people with their greedy escalation in profits at the detriment of the citizens of Connecticut.

There is plenty of evidence that shows that de-regulation only works for the energy companies and not for the people of Connecticut who have to give up daily needs in order to pay for the outrageous profits of these energy companies. It does not take a rocket scientist to figure out who is the real benefactor of this vote by our elected officials in allowing de-regulation to happen and to continue.

As a member of Fight the Hike and resident of Connecticut, I am asking you and your colleagues to support bills numbered 5783, 5815 and 5819 in order to go back to regulating the energy companies.

I apologize for not being able to be there at the public hearings to speak on this important subject, but I will be out of state during these hearings. I ask that my opinion be included in the hearing record.

Thank you.
